ITEM-60: Two actions related to Amendment No. 3 to the Agreement with Lee & Ro, Inc. for Design Services for Point Loma Wastewater Treatment Plant Grit Improvement Project.

(Point Loma Community Area. District 2.)

CITY MANAGER'S RECOMMENDATION:

Introduce the following ordinance in Subitem A, and adopt the resolution in Subitem B:

Subitem-A: (O-2005-126) INTRODUCED, TO BE ADOPTED ON MONDAY,
JUNE 20, 2005

Introduction of an Ordinance authorizing the City Manager to execute Amendment No. 3 to the Agreement to re-phase \$300,000 of the amount authorized in Amendment No. 2 from FY 2005 to FY2007 for design services in connection with the Grit Processing Improvement Project (the Project).

Authorizing the City Manager to approve a revised phase funding schedule for the Agreement in the following manner, provided that the City Auditor and Comptroller first furnishes a certificate or certificates demonstrating that the funds necessary for expenditure under the Agreement as amended are, or will be, on deposit in the City Treasury, and contingent upon the passage of the FY 2007 Capital Improvement Program budget and Appropriation Ordinance:

Phase 1 - \$500,000 FY 2004 (previously authorized by R-297457)

Phase 2 - \$300,000 FY 2007 (contingent upon Council approval of the FY 2007 Budget)

Subitem-B: (R-2005-1138) ADOPTED AS RESOLUTION R-300506

Stating for the record that the Third Amendment is a subsequent discretionary approval of the Project addressed in E.I.R. Addendum No. 42-0358 and therefore not a separate project under CEQA Guideline Sections 15060(c)(3) and 15378(c);

Stating for the record that the information contained in EIR Addendum 42-0358, including any comments received during the public review process, has been previously reviewed and considered by this Council and it is determined that this subsequent discretionary approval of the Third Amendment does not involve substantial changes or new information of substantial importance which would warrant any additional environmental review.

CITY MANAGER SUPPORTING INFORMATION:

On December 5, 2000, the City Council approved the original agreement with Lee & Ro, Inc. to provide engineering services for the Grit Processing Improvement Project (GIP) at the Point Loma Wastewater Treatment Plant. Myong H. Ro is the sole shareholder of Lee & Ro, Inc, a California corporation. In January of 2001, a no cost Amendment No. 1 was executed to correct the fee distribution for the scope of work. On December 9, 2002, Resolution R-297457 authorized Amendment No. 2 in the amount of \$800,000 for additional engineering design services.

Phase 2 of Amendment No. 2 required an encumbrance of \$300,000 prior to the end of FY 2005. This money is not needed at this time due to the funding related delay of the GIP project. Amendment No. 3 is requested to reallocate the encumbrance of the phase 2 funding until FY 2007 when it is anticipated that this money will be needed.

FISCAL IMPACT:

This Amendment will re-phase \$300,000 authorized in Amendment No. 2 from FY 2005 to FY 2007. Funding is available from Fund 41508, CIP-45-943.0, and Point Loma - Grit Processing Improvements in FY 2007 for \$300,000 contingent upon Council approval of the FY 2007 Capital Improvement Program and Appropriation Ordinance Budgets.

NATURAL RESOURCES AND CULTURE COMMITTEE'S RECOMMENDATION:

On 11/17/2004, NR&C voted 3 to 0 to approve the City Manager's recommendation. (Councilmembers Frye, Madaffer, and Inzunza voted yea. Councilmember Zucchet not present. District 4-vacant.)

SUPPORTING INFORMATION:

The Metropolitan Wastewater Department (MWWD) regularly implements construction, repair, or maintenance activities in accordance with Council Policy 400-13, Planning for Management of Sewer Facilities Located in Canyons and Other Environmentally Sensitive Lands. This often requires compensatory upland and wetland mitigation for impacts to jurisdictional wetlands and timely restoration of impacts within canyons and other environmentally sensitive areas in accordance with the Canyon Sewer Cleaning and Long-Term Sewer Maintenance Programmatic Environmental Impact Report (PEIR) and Master Permit approved July 15, 2004. Timely mitigation of impacts associated with these activities is also required under the California Environmental Quality Act (CEQA) and by regulatory agencies. Accordingly, this project is proposed to meet these requirements.

The San Diego River Wetland Creation Project involves the creation of 3.4-acres of native riparian habitat located along the southern bank of the San Diego River, west of Interstate 15, and north of Camino Del Rio North to mitigate for past and future impacts within the San Diego River Watershed resulting from the Canyon Sewer Cleaning and Long-Term Sewer Maintenance Program. The conceptual design for the project has been presented to the Mission Valley Unified Planning Committee, and the San Diego River Conservancy, and has been reviewed and approved by the Development Services Department, the Planning Department Multiple Species Conservation Program, the Park and Recreation Department, and the resource agencies.

The project will be implemented in two phases. Phase A, to be implemented under a separate contract, consists of site preparation, installation of erosion control measures, grading, and soil export and disposal. Phase B, the subject of this contract, would include finish grading, installation of an irrigation system, revegetation, and implementation of a long-term maintenance and monitoring period. A construction contract to implement the project will be advertised in accordance with the requirements of the Municipal Code and a contract would be awarded to the lowest responsible bidder.

FISCAL IMPACT:

Funds in the amount of \$528,000 were encumbered in FY 2004 in D.E. 2410066 for wetland mitigation. The remaining D.E. balance will be used in future actions.
